Project Presentations

CSCC10H3: Human-Computer Interaction

Department of Computer and Mathematical Science

Summer 2024

Requirements

- 10 minute PowerPoint presentation

- Recorded with voiceover, and uploaded to MyMedia

- Slides and recording to be submitted separately on Quercus, under respective submission modules

- Due: Saturday, July 27th

Content

- Identify the problem and context

- All aspects of the design must be covered
    - Gathering User Requirements
    - Prototype
    - Usability Testing
    - Final Results
    - Limitations and Future Work

Recording the Presentation

After creating your slides:

- Decide who will be presenting
  - Does not have to be all group members

- Use the "Record" feature in PowerPoint to add voiceover, then File -> Export -> Create a Video
  - Must have the desktop app for this

- Alternatively, use Zoom
  - Screenshare and present virtually, while recording

Uploading the Presentation

- Log in to MyMedia (https://mymedia.library.utoronto.ca/login)

- Click "Upload" to browse your computer files and add the recording

- Please ensure you have sufficient time to do this, in case of errors or long processing times

Submission

- Click the icon under "Share" and copy the permanent link of your video

- Submit this link under the "Phase IV: Presentation Link Submission"

- Submit your presentation as a .pptx or .pdf file, under "Phase IV: PowerPoint Slides Submission"

- **Due Saturday, July 27th, 11:59pm**
